Marx Toys Sampler: A History & Price Guide

Synopsis

This reference and price guide presents a personal history of the former Marx Toys Company plant at Glen Dale, West Virginia. There are details of Marx lithographed metal doll houses, photos of toy and figure prototypes, and interviews with a Marx model maker and the son of a Marx artist.

Customer Reviews

This brand new (year 2000) 192 page book gives you an inside look at one of America's favorite toy makers. It takes you behind the scenes at Marx to help you see and understand the company and its people. There is a beautiful 32 page full color section, in addition to more than 150 black and white photos. Many of the photos have not before been published. More than 1,200 individual items are listed, including many values. Major topics range from Play Sets, Doll Houses, Lithographed Items, to Johnny West, and Sandy Dolls. A Marx time line from 1896 to 1999 is provided along with a handy index. Toy collectors will be delighted with this new reference.

I enjoyed this book because of its detailed accounts of Marx toys that I grew up with. The price guide is also handy when I'm out looking for Marx items for my sisters' collections. History of a manufacturer is always interesting and the photographs help define the pieces I'm searching for. I appreciate a good book that shows great effort extended in presenting the information. I would recommend this book to the serious toy buyer and to new seekers of antique Marx toys. Kudos to the author!

This book would be a great companion book. Most Marx toys collectors would benefit from information on part numbers, years of production and viewing the wonderful selection of photographs featured in the book. The book covers about 30 years worth of knowledge on toys produced at the Glen Dale plant site. There is even a partial price listing on items that Ms. Smith and Mr. Whipkey were familiar with. All in all. A good book.

I found this to be an ideal route to fond memories of my childhood. Many of the toys in this book were basis of several Christmas dreams. As a baby boomer, I have been collecting the dollhouses and furniture with the hope that my granddaughter will appreciate them, too! This is a good reference guide to have!

What a wonderful trip down Memory Lane! I had a couple of uncles that worked for Marx when I was a little kid and had many of the toys featured in Michelle's book. I can only wonder what happened to my Mark toys. I guess they found their way to cousins or younger friends, but I sure would like to have them back now! Good job Michelle - I truly enjoyed paging through your book - it appears to have been a labor of love as opposed to a for profit project. Thanks for the memories!

A good reference for the old collectibles with colored photos for easy identification on these toys of by gone years from MAX!
