# Coastal Living Outdoor Spaces: Fresh Ideas For Stylish Porches, Decks, Patios & Gardens

## Synopsis

From front door to back patio, the first section of Coastal Living Outdoor Spaces features a colorful visual tour of some of the most inspiring outdoor areas from the pages of the magazine. Design ideas and home decorating tips show how to achieve a relaxed coastal-style ambience outdoors, regardless of where you live. The spaces are deconstructed so it's easy to understand the key components to getting a particular look. The second section offers lots of great ideas for designing everything from a small garden oasis to which coastal-inspired plants are best for sun or shade. The final section provides exterior paint palettes, product suggestions, and how-to care guides for every outdoor space. This book offers exciting and fun design inspiration for everyone-even if you don't live at the beach! 200+ pages of outdoor spaces design tips and advice from the magazine that is the expert on all things Coastal Accessible, useful, and easy to understand information on a range of outdoor spaces including porches, pools, patios, decks, outdoor kitchens, and more Over 200 full color inspirational photos Resource section with maintenance checklists for outfitting and caring for your outdoor space

## Customer Reviews

I do love that all of the outdoor spaces related photos are together in one book, but because I have a Coastal Living magazine subscription, I have seen all these pictures before. There doesn't seem to be any new photos that haven't already been published in the magazines.

I subscribe to Coastal Living Magazine, not because I will ever afford a Carmel getaway, but because leafing through it makes me feel as though I've been in one for a while. This book is the same kind of mental vacation. And the images and ideas are fresh inspiration every time I look through it. I am realizing that for me, interior design is actually more about curating than a once-over thing, and having books like this one in my collection helps me stay mindful of the feel and sensibility that I want to have in my home when I'm out in the world. A lot of home improvement shows are about performance, a one-off mega change that blows people away, but real interior design, done for yourself and with your own needs in the forefront is rarely a show-stopping, heart-stopping rush to a finish line. Structural renovations aside, having wonderful spaces to be in in your home and garden is actually a result of the ongoing meaning you express in the objects and furnishings you select or create. This book helps with that sort of process. If you leaf through it regularly, the high-production values and variety of images will give you a sense of direction and help you identify what speaks to your coastal self. And if you've had a long day at work and you're tired and run down, turn on the reading lamp in the warmth of your house on a winter evening and open the pages to those summer hours near the sea, where the cushions, umbrellas, pergolas and lounge chairs, make home of the outdoors, and the sound of the ocean is waiting to be noticed.

We bought this book to get some ideas for around our home and love all of the ideas and inspiration we have gotten from purchasing. A must-buy!

A nice book in an attractive format. But I was looking for ideas for houses in Hawaii and there are no Hawaii houses anywhere in this book about coastal living. Strange. . Plus it would be nice to have the month and year of the magazine article under each image so a reader could look up additional information.

Beautiful compilation of design ideas for outdoor spaces along the coast. Coastal Living magazine put together an amazing book filled with gorgeous pictures of the most breathtaking outdoor spaces along the US coast line. This is the perfect book for anyone looking for coastal beach home design ideas for their outdoor spaces.

I was very happy to be able to order this book as a Anniversary gift for my sister and her husband. They are in the process of building a house in Lewes, De. and all this info will be wonderful for them!

I really love the ideas in this book and so did my daughter. She lives in a coastal town. I got the book for her and we found sound beautiful ideas that she can re-create. I think I will borrow it from her to do my own beach theme!

This book has some good ideas and well put together. We like the book and are glad we bought it for our coastal home.
