## Customer Reviews

It arrived quickly and well packaged. The book is in excellent condition. I am however, disappointed in that there are not a lot of patterns that I like. That's the draw back in purchasing these types of books via internet. Not able to preview prior to purchasing them.

A great book for Plastic Canvas lover

This book has some really cute ideas for home themed ideas. The instructions are easy to understand, the diagrams are clear. I had bought the book for my daughter that wanted to start in plastic canvas. She loved it and was able to pick up right away on how to do the stitching. The ideas are really cute and would make great gifts for anyone!!

I have really enjoyed the projects in this book. I am a beginner and I have had a hard time finding a book that I actually want to do the projects in. Either they are too simple or too hard. This one is just right.
