Grow 15 Herbs For The Kitchen: Storey's Country Wisdom Bulletin A-61 (Storey Country Wisdom Bulletin)

Synopsis

No kitchen should be without these fifteen beautiful, versatile, aromatic, and savory wonders of the culinary world. These herbs form the backbone of the quintessential kitchen garden and are the flavorful basis for many a delectable dish. If you're looking for simple ways to spice up your cooking, these herbs are your answer. Of course, the best way to get to know herbs--and to guarantee yourself of their fine quality--is to grow them yourself. Whether you own acres in the country or a studio apartment in the city, you can cultivate, harvest, preserve, and use these herbs with minimal effort--and *Grow 15 Herbs for the Kitchen* will show you how!

Customer Reviews

I wish the publisher's review would have given this basic bit of information. Here you go:1.

Angelica2. Basil3. Catnip4. Chives5. Dill6. Fennel7. Marjoram8. Mint9. Oregano10. Parsley11. Rosemary12. Sage13. Savory14. Tarragon15. ThymeThis tiny book is a good albeit brief introduction to herb gardening, allocating about one tiny page to each herb. As one reviewer pointed out, much of the information can be obtained on the internet for free.

This little booklet is very helpful. It tells a tiny history, gives latin name, how to propagate, & how to harvest. They make a couple of use suggestions for each herb. Not too good on how difficult it can be to start some of them from seed. For the price, it is a nice introduction to the world of culinary herbs.

As a result of this little booklet, we now have a very nice herb garden in the back yard. You do need to experiment with your herbs, however, to find out which do the best in your own location. I find that if you aren't sure, you can plant some in pots and move them around to see where they do best.

Did quick read and find the series i bought along with "Grow 15 Herbs...." to be helpful. It wasn't like: it's too overwhelming". It's a handy size i can carry and review anytime, so i rate it a 5 (I love it).

Enjoyed reading this short book on herbs! Hopefully my herbs can be more abundant than last year after my new found knowledge I think I will use containers instead of trying for them to grow in the ground.
