I ordered this cheaper on than I had seen it on any other website. It's an old New York library book which adds a lot of charm to it. The recipes and decorating tips are a lot fancier than I had expected though.

I was not impressed with this book. I entertain a lot and this book was nothing special. Recipes were not something I would use. Buy Entertaining with Style instead - it's much better.

Too preppy to be hipsters, apparently yuppies still exist! And zinnias, amaranth, dahlias and giant castor beans from the cutting garden ARE an inexpensive way to provide a whimsical touch! I wanted to retch. Not one recipe piqued my interest. Thank god I got it for free as I now won't feel so bad tearing out the pages and using them to pack away my precious chemistry vials that I use for vases. To quote Charles Brown: good grief!

Pretentious book about entertaining. Got nothing out of it, except as a coaster on my coffee table for my coffee mug.
