This little paper back book gave me ideas. I'm not good about following directions exactly. I like to have a round about idea of what I want and then throw stuff together. This book is goof for that and ideas about what spices go with what dishes. I have several recipes in here I'm using as regular favorites now. Thanks

It's only been a couple of days since I bought this book, and I've already tried some of the recipes. The result was great, the meals where tasty, and have really helped me with transitioning to a vegetarian.

Loved this book! The recipes you find inside are absolutely delicious. It has a section with the different measurements which makes it a lot easier to follow the instruction and have a nice tasty result. Eating vegetarian is not always easy and is very handy to have access to a book like this one. There are rice dishes for breakfast, main dishes and also desserts, everything one may need. I

highly recommend this book to anyone how is eating vegetarian and looking for some yummy ways to expand their kitchen repertoire. It is just great!
