Customer Reviews

This book doesn't help you at all I just took the AFOQT yesterday and can say that this book might

help with around 5 questions. Like other posters have said it's more of an outline or pamphlet. Get a real book this thing is a waste.

This is a great value purchase. It's a condensed study guide that gets to the heart of what you need to know. The questions with detailed drawings are particularly good and there are answer explanations to explain why certain answer choices are correct.

I think the study guide has definitely helped me prepare for the exam. I know how quickly go through the exam and have a better strategy on how to take it. Before the study guide, I wouldn't have done so great. I am very confident after reviewing it

It has helpful tips but only one full test. I wish there was more material and another test.

I purchased this booklet this month (Jan 2016) because I am commissioning to become an air force officer. I must say that this booklet is incredibly useful. Thank you for shipping promptly.

Gift.

This is a great book to use for studying for the AFOQT. I would recommend this for anyone who wants to do well on their test. I'm giving it a five star rating.

A must have by far... This guide takes the worry out of test taking. The guide has plenty of helpful tips and tricks that will give you the ease of mind needed to score high on your exam.
