Customer Reviews

A lot of useful information even though written decades ago. At a penny a copy a must buy for anyone interested in oriental carpets.

Wonderful

Denny has a great deal of insight into rugs, but almost everything he talks about translates to other fields. I put the book down, smarter about what's on my floor and smarter about navigating the material world.

Good! Admits his first purchase was poor quality at a high price but he keeps it as a reminder of what can happen. That is honest.
